SEO PERFORMANCE AUDIT · SE RANKING

crcrepair.co.uk

Last 30 days **(7 Oct – 5 Nov 2026)** vs previous 30 days **(7 Sep – 6 Oct 2026)** · UK Google

82 Site health score

What improved

- Backlinks moved from a **net loss of 137** to a **net gain of 99**. Losses fell 94%.
- **+17 referring domains** net, against zero the period before.
- Domain authority rose **27 → 29**.
- Slow-loading pages fell **15 → 0**. Core Web Vitals pass on mobile and desktop.

What needs attention

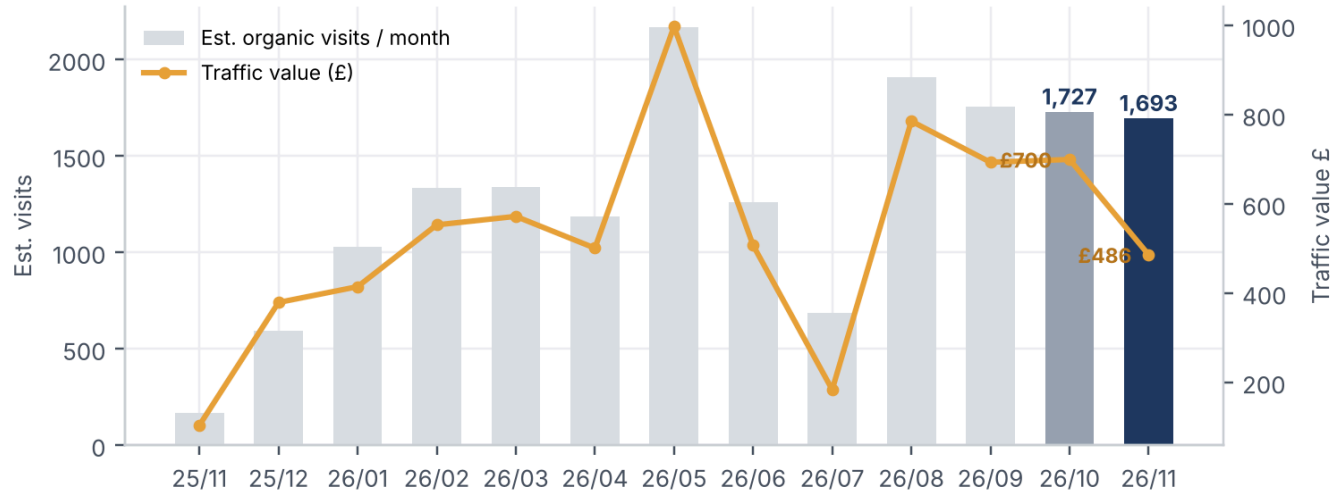

- Traffic value fell **30.5%** (£700 → £486) while visits dipped only **2%**.
- Fewer keywords in the top 5 (−11) and top 10 (−12).
- Audit errors rose **39 → 43**. Redirect chains rose **14 → 22**.
- Every page has a broken external link and images without alt text.

ORGANIC VISITS (EST.)	TRAFFIC VALUE	KEYWORDS IN TOP 5	KEYWORDS IN TOP 10

out of 100	28 Sep → 2 Nov	28 Sep → 2 Nov	28 Sep → 2 Nov

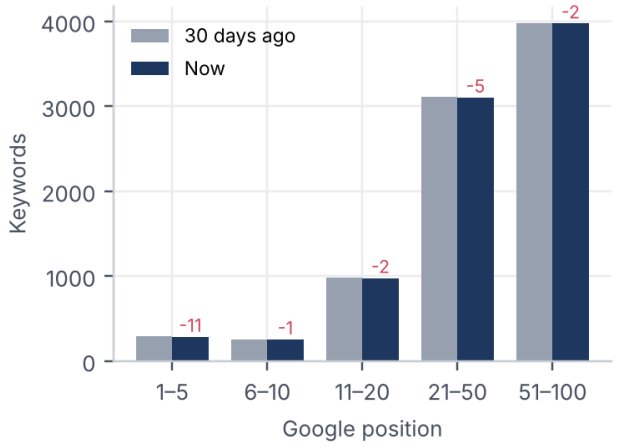

Organic traffic & traffic value · 13 months

Dark bar = now, grey bar = 30 days ago. Visits are far above a year ago and close to last month's level, but the value of that traffic has dropped.

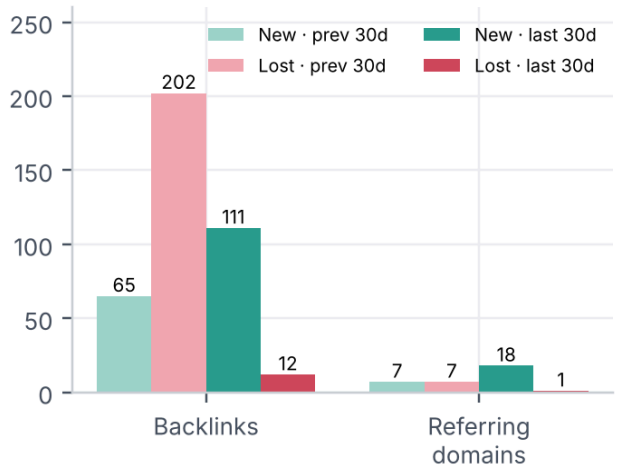

Rankings & authority

Keyword position spread

UK organic keywords by Google position, 30 days ago vs now.

New vs lost links

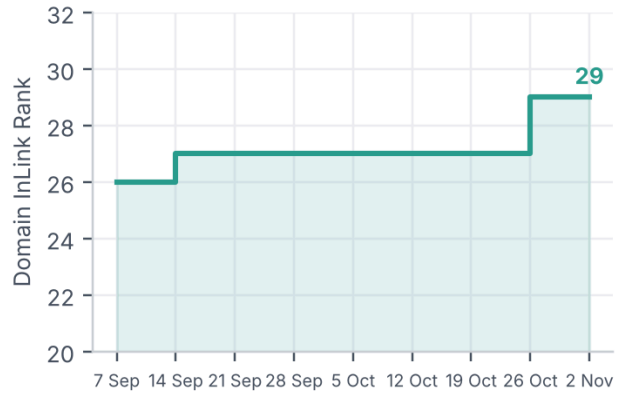

The previous period lost 202 backlinks. In the last 30 days only 12 were lost.

Live backlinks · 60 days

2,395 → 2,494 over the last 30 days (+99). 269 referring domains.

Domain authority (weekly)

Stepped up from 27 to 29 in the week of 26 Oct.

Top organic keywords by traffic

KEYWORD	SEARCHES / MO	POSITION	EST. VISITS
cracked screen	6,600	5	184
screen broken	8,000	25	76
tech repair	1,600	5	72
crc repair	70	1	32
crc	4,400	6	20
screen replacement	880	7	17
google repair	590	16	15
phone repair glasgow	210	2	12
screen repair near me	1,300	14	12
fixed cracked screen	320	4	11

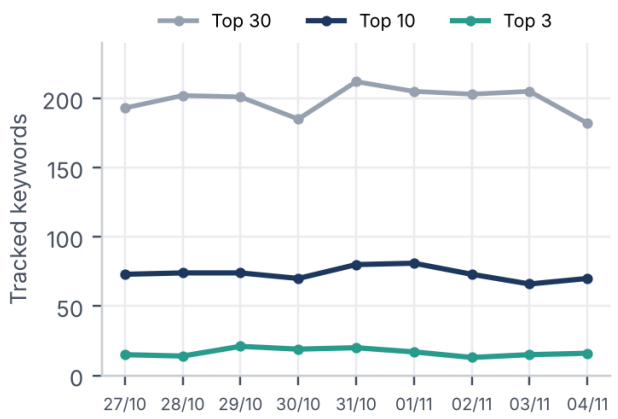

Positions are unchanged on the leaders. 'cracked screen' (position 5) brings 11% of all organic visits.

Technical health & tracked keywords

Site audit: 28 Sep vs 2 Nov

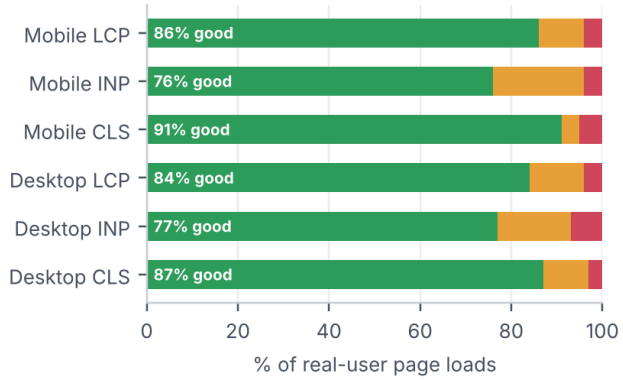

Rank tracker (455 keywords)

Tracking has had full coverage only since 27 Oct. Top 10: 73 → 70. Average position 28.1 → 29.1. 125 improved, 137 declined, 22 newly ranking.

Core Web Vitals (real users)

All six pass Google's thresholds (Chrome UX Report).

Biggest gainers

KEYWORD	VOL	POS	Δ
motorola service centers	70	50 → 4	+46
how much does phone screen repair cost	590	63 → 31	+32
iphone repair wolverhampton	50	45 → 13	+32
cost for phone screen repair	170	78 → 48	+30
screen repair services	170	32 → 5	+27
phone shops wolverhampton	480	39 → 14	+25

Biggest drops

KEYWORD	VOL	POS	Δ
phone shop plodder lane	30	22 → 69	−48
chester road phone shop	260	20 → 64	−43
how much to fix an iphone screen	590	27 → 66	−39
bournemouth pc repair	390	46 → 85	−39
get it repaired	70	2 → 36	−34
iphone repair high wycombe	70	40 → 74	−33

Quick wins (pos. 4–15)

KEYWORD	VOL	POS
screen replacement	1,900	12
screen repair near me	1,300	10
how much is it to fix a iphone screen	590	10
screen repair near me samsung	590	12
laptop battery replacement near me	590	4
cell phone screen repairs near me	590	14
tech geek feltham	590	8

Gainers and drops compare the averages for 27–30 Oct and 1–4 Nov, for keywords with at least 30 searches/month.

Priority action plan

High

Fix the sitewide broken external link

263 pages (every page) link to a URL that returns 4XX. That pattern means one link in the header or footer template. Fixing it once clears the second-largest issue in the audit.

High

Remove redirect chains and point internal links at final URLs

Redirect chains rose from 14 to 22, and 254 internal links point at redirecting URLs. Update the menu and footer links and collapse each chain to a single 301.

High

Recover high-value keywords that slipped

Traffic value fell 30% while visits fell only 2%, which points to commercial keywords losing positions. Refresh the cost and price pages, e.g. 'how much to fix an iPhone screen', 'technology repair centre' and 'Bournemouth PC repair'.

Med

Push page-2 keywords onto page 1

'screen replacement' (1.9k searches/mo, position 12), 'screen repair near me samsung' (position 12) and 'cell phone screen repairs near me' (position 14). Add internal links and fuller content to the matching service pages.

Med

Add alt text and H1s

263 pages have images without alt text and 25 have no H1. Both are template-level fixes with a quick payoff for accessibility and image search.

Med

Connect Google Search Console to SE Ranking

Not connected yet, so this report has to estimate clicks. Connecting it gives real clicks and impressions for the next comparison.

Low

Keep the link-building momentum

Backlinks moved from a net loss of 137 to a net gain of 99, and authority rose 27 to 29. Keep earning links to the local pages (Glasgow, Romford, Stoke ...), and diversify anchors beyond 'phone repairs'.

About this data

- **Traffic, value and keyword counts** are SE Ranking's UK estimates. "Now" is the snapshot of 5 Nov and "30 days ago" is the October snapshot. They model visits; they are not your analytics.
- **Backlinks and referring domains** are exact daily counts for 7 Oct – 5 Nov vs 7 Sep – 6 Oct.
- **Site audit** compares two crawls of the same audit (ID 424027): 28 Sep and 2 Nov. SE Ranking did not keep a health score for the 28 Sep crawl. A separate project audit on 27 Oct also flagged 276 pages loading an external JavaScript file that returns an error, plus 3 mixed-content pages. Neither issue appears in the 2 Nov crawl.
- **Positions differ between tables.** The rank tracker checks tracked keywords every day for its set location. The top-keywords table comes from SE Ranking's monthly UK database. The same keyword can therefore show a different position or search volume in each.
- **Rank tracker** was set up on 9 Oct and has had full daily coverage only since 27 Oct, so there is no previous-30-day rank tracker baseline. Today's check was 86% complete when the data was pulled, so it is left out.
- Google Search Console is not connected to the SE Ranking project, so real clicks and impressions are not included.
